About blueprism®

Blue Prism, the pioneering global leader in Robotic Process Automation (RPA), is an UK-based Fortune 500 multinational company. Blue Prism has been credited for coining the term "Robotic Process Automation". Blue Prism pioneered and makes enterprise Robotic Process Automation software that enables business operations to be agile and cost effective by automating manual, rule-based, repetitive back-office processes and improving accuracy by developing a "Digital Workforce."

Major Fortune 500 companies that use Blue Prism in their RPA solutions:

accenture

Cognizant

Deloitte

genpact

Robotic Process Automation (RPA)

RPA is an application of technology, governed by business logic and structured inputs, aimed at automating business processes.

Companies are adopting automation technology like Robotic Process Automation (RPA) for business growth to encourage greater creativity, productivity and innovation from employees. The growth of RPA is anticipated to assist organizations in optimizing various back-end processes.

Walmart, Deutsche Bank, AT&T, Vanguard, Ernst & Young, Walgreens, Anthem and American Express Global Business Travel are among the many enterprises adopting RPA

RPA in India

India is considered to be a favourite destination for the RPA solutions market in the near future.

“ RPA market in India is growing at a CAGR of above 15% is not big like the beginning — *Gartner*

What's very promising is that RPA is not only for IT, it is a multi-industry phenomenon.

- ✓ BFSI
- ✓ Telecom & Media
- ✓ Healthcare & Life Sciences
- ✓ Retail & Consumer Goods
- ✓ Manufacturing
- ✓ Transportation & Logistics

Every industry will use RPA systems in the foreseeable future. It follows, then, that these companies will need people with the skills necessary to implement their RPA strategies. And, right now, those skills aren't yet plentiful.

Global Demand for certified RPA developers will rise by 150% in 2021

More and more educational institutes are going for RPA in their curriculum with many colleges offering RPA as an elective.

Blueprism and Netalla are well-equipped to help you provide your students a comprehensive learning platform and get them future-ready for the “Automation” era.

Educational Institutions using Blue Prism RPA labs

Blue Prism and Netalla Innovations together provide Centers of Excellence (CoE) at leading universities and colleges all over India. CoE is a skill augmentation platform aimed at providing best-in-class RPA learning outcomes, thereby bringing students closer to the emerging RPA technology used across all Industries.

It consists of all software tools, license required for training, Learning Management System (LMS), cutting edge curriculum, sustainable real time research projects, meaningful use cases, workshops, internships, mentoring and seminars specifically for getting college students corporate-ready.

Benefits to Students

- ✓ **Improved knowledge levels** in all the practical and advanced concepts of RPA
- ✓  **RPA onsite training** aligned with global Blue Prism certification
- ✓ Internship and **project opportunities** based on RPA
- ✓ Augment resume with exposure and experience in industry relevant **RPA skills**
- ✓ **Real World knowledge** through network with Top industry recruiters

Benefits to Faculty

- ✓ **Training** Get empowered with comprehensive knowledge in Blue Prism RPA theory, concepts and practical applications
- ✓ **RPA Lab** Get hands-on experience in a world class RPA Lab
- ✓ **RPA Kit** Access to RPA kit that includes study material, courseware and use cases.
- ✓ **Flexible Model** Universities can incorporate Blue Prism RPA in their regular curricula as a plug & play model

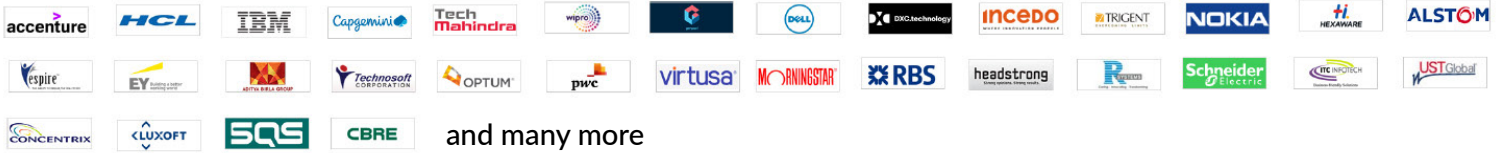

Benefits to Institution

- ✓ **One of its kind Centers of Excellence:** CoE offers its Blue Prism Global Certification programs and gives students hands-on experience with RPA Industrial Tools, Software, LMS and Platform worth 22,000 USD.
- ✓ **Brand building:** Universities offering RPA curricula can capitalize on the opportunities in the field of RPA recruitment. They will also have a first-mover advantage vis-a-vis other RPA technologies.

Netalla Advantage

- ✓ **Accreditation** Our advanced RPA courses will help universities achieve accreditation with national accreditation bodies such as the National Board of Accreditation (NBA), Accreditation Board for Engineering (ABET), and National Assessment and Accreditation Council (NAAC).
- ✓ **Revenue Center** By offering courses to external students in the catchment area and the corporate community, the Institute will be able to generate additional revenue.
- ✓ **Nodal Center** Universities which meet certain criteria can function as nodal centers for the entire region, increasing revenue generation even further (Terms & Conditions apply).
